DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE	
<p>This <math>3\frac{1}{2}</math> story brick house which is located near the middle of the block was built around 1873. Lived in by the Christ Church minister and his family, the building is in excellent condition, inside and out. It is 3 bays wide, laid in running bond and the bricks are painted cream. The doorway, framed in marble, <del>has a basket handle arch</del> and <del>has</del> a transom. Five steps lead to a stoop before a vestibule and inner door. There is a basement entrance below the steps. All the windows except the attic are rectangular, one over one lights with flat-arched brick lintels and marble sills. The slate-shingled Mansard roof, rising above a projecting cornice which is supported by brackets, is pierced by two full-arched dormer windows, the surrounds of which appear to be wood.</p> <p>A pavillion effect is created with curbing and by placing the central part of the roof in low relief. The dormer windows are double hung with 2/2 lights. The remaining basement window in marble ashlar base is filled with glass block. Above the projecting marble belt course the tall first floor windows rise to the height of the entrance opening.</p>
